

## DairyFlex-Lite FDA Rubber Food Hose Type T5715

## DAIRYFlex

The Next Generation... Seeing is believing

### Applications

Ideally suited for the transfer by suction or delivery of dairy food products, a variety of edible oils and animal fats.

The non tainting FDA liner also makes this an ideal hose for many other product transfer applications within the dairy, healthcare, confectionary and other food processing plants.

Also recommended for use within the tank truck, ship, storage tank transfer, food handling and process engineering sectors where an FDA sanitary hose with a non marking cover is required.

### Construction

White mirror finish FDA approved NBR liner with Blue corrugated Cover and specially formulated low friction exterior.

Reinforced with twin wire helix and high tensile synthetic cords, suitable to 10 bar working pressure.

### BREWFlex Assemblies'

The new FlexTech range of next generation beer and wine hose assemblies are available with smooth or corrugated covers and working pressures up to 16 Bar and have a high quality mirror finish Butyl liner.

## DairyFlex-Lite FDA Food Hose

### T5715 Rubber Food & Milk Suction & Delivery...

A tough and flexible food quality hose manufactured from an odourless and taste free NBR smooth white liner complying to FDA 21.177.2600 standards, BfR D.M.21/03/73 recommendations for food legislation and is free from animal derived ingredients (ADI).
